PROFESSIONAL SUMMARY

Full Stack Developer with **2.5+ years of experience**, specializing in scalable and performance-driven web and mobile applications. Proven expertise in **Node.js, Express, MongoDB, Redis, REST APIs** for backend development, and **React, Redux, Tailwind CSS** for frontend. Experienced in integrating **Gen AI** features into applications using AI APIs and LLM-based solutions. Adept at **system design, state management**, and delivering clean, maintainable code to solve real-world problems with modern web technologies.

WORK EXPERIENCE

Borderfree Technologies — Product Engineer (REVO) *Feb 2022 – Sep 2024*

- Developed scalable full-stack solutions with **Node.js, Express.js, MongoDB, Redis, and React** to power live-streaming commerce and creator tools.
- Engineered a multi-host live streaming system, increasing user engagement by **40%**, using **WebSockets** for real-time communication.
- Designed & implemented a short-video commerce engine with integrated product linking, referral tracking, and AI-powered recommendations, leading to a **30% revenue increase**.
- Enhanced frontend architecture with **Redux, Theming, Tailwind CSS, and Deep Linking**, contributing to a **4.8/5 App Store** rating.
- Integrated **Gen AI** capabilities for automated content tagging and personalized feed generation.

Heycoach Bootcamp — Full Stack Trainee (DSA, System Design, Gen AI) *Oct 2024 – May 2025*

- Completed an intensive 8-month program focused on mastering **Data Structures, Algorithms**, scalable **System Design**, and **Gen AI** integrations.
- Built multiple backend-heavy projects emphasizing high availability and low latency using **Node.js, MongoDB, Redis**.
- Developed AI-enabled features such as chatbots and semantic search using LLM APIs.
- Participated in weekly mock interviews, system design discussions, and peer-reviewed coding challenges.
- Improved coding proficiency by solving **500+ DSA problems** across LeetCode, GeeksForGeeks, and other platforms.

EDUCATION

NM Institute of Engineering and Technology, Bhubaneswar *July 2017 - April 2021*

Integrated 4Yrs. B.Tech (Computer Science), 8.6 CGPA

Final Year Project : College Library Management (JavaScript, SQL, Node.js, HTML, CSS)

PROJECTS

Library Management App (Android) [↗](#)

- Built a scalable full-stack system using **React Native, Node.js, TypeScript, MongoDB, Redis**, and real-time **WebSocket** updates.
- Supports **70+ libraries** and **2300+ students**, with JWT authentication, secure API rate limiting, and AI-powered search suggestions.
- Optimized for low-end devices with fast load times and lightweight architecture.

RateNStyle [↗](#)

- QR-based salon feedback platform using **ReactJS, Node.js, MongoDB, Redis, Google OAuth**.
- Collected **350+ reviews** from 20+ salons, increasing feedback submission by **60%**.
- Features real-time dashboard analytics with stylist performance metrics and AI sentiment analysis.

Image Compressor [↗](#)

- In-browser image compression tool built using **React, HTML5 File APIs**.
- Users can adjust image quality, preview output, and download without uploading to a server.
- Supports JPG, PNG, and WebP format conversions instantly.

SKILLS AND EXPERTISE

Languages & Frameworks	JavaScript, TypeScript, Node.js, Express.js, Python, React, React Native, Redux, Next.js, Tailwind CSS, Socket.IO
Backend & Databases	MongoDB, PostgreSQL, DynamoDB, Redis, REST APIs, WebSocket, JWT, Google OAuth, Caching, API Rate Limiting
Gen AI & AI Tools	OpenAI API, AI-based Search, Semantic Search
Dev Tools & Platforms	Git, GitHub, Postman, CI/CD, Google Cloud Platform, Netlify, Vercel, AWS (S3), React Navigation, Vite, Expo, AWS (EC2, Lambda, CloudFront, RDS)
